HAMMER FORCE PRO

The S-FORCE Series is engineered for commercial facilities that require both training efficiency and mechanical stability. With selectorized weight stacks, guided movement arms, and 2.5 kg incremental weight options, the series delivers a smooth training feel with easy load selection and finer progression. Built for consistent performance and everyday durability, SM5000 provides a practical strength solution for modern gyms and fitness clubs.

FORÇA

Hammer S-Force

THE ROAD TO CONTROLLED STRENGTH STARTS HERE.

- S-FORCE Series - Built for controlled strength performance.
- Designed to combine the convenience of selectorized weight stacks with a guided motion structure inspired by free-weight training.
- The linked movement arms provide a stable and consistent training path, while 2.5 kg add-on weights allow finer load progression for more precise training control.

FORÇA

Hammer S-Force

Leg Curl
SM5001

1. Dimension: 1675*1095*1330 mm
 2. Weight: 240 kg
 3. Weight Stack: 95 kg

■ The DHZ SM5001 Prone Leg Curl is designed for controlled hamstring training in commercial strength areas. The separated hip and chest pad layout helps support a stable prone position, while the adjustable start range allows users to select a comfortable training angle based on individual mobility and exercise preference.

Leg Extension
SM5002

1. Dimension: 1250*1130*1445 mm
 2. Weight: 300 kg
 3. Weight Stack: 138 kg

■ The DHZ SM5002 Leg Extension provides focused quadriceps training with a clear and accessible adjustment layout. Key settings can be reached from the seated position, and the adjustable start range helps users set a suitable movement arc for controlled leg extension training.

DHZ
GIGAFACTORY

FORÇA

Hammer S-Force

Seated Leg Press

SM5003

■ Dimension: 2000*1085*1540 mm
▲ Weight: 385 kg
■ Weight Stack: 138 kg

■ The DHZ SM5003 Seated Leg Press is built for lower-body pressing training with stable body positioning and a smooth guided movement. The rail-based structure supports consistent motion, while the angled pressing path helps create a comfortable and secure training experience for commercial gym users.

14

Pectoral Fly

SM5004

■ Dimension: 1310*1200*2050 mm
▲ Weight: 298 kg
■ Weight Stack: 138 kg

■ The DHZ SM5004 Pectoral Fly is developed for chest isolation training with adjustable arm positioning and stable user support. The integrated foot assist bar helps users enter and stabilize during exercise, while the adjustable start mechanism allows different range-of-motion settings for varied training needs.

15

FORÇA

Hammer S-Force

STEEL-CORD REINFORCED BELT DRIVE

- Belt drive system applied across the S-FORCE Series.
- Embedded steel cords ensure high tensile strength and durability.
- Smooth, quiet transmission creates a more responsive training feel.
- Clean drive structure supports reliable performance in commercial use.

FORÇA

Hammer S-Force

Lateral Raise
SM5005

1. Dimension: 1095*930*1330 mm
2. Weight: 260 kg
3. Weight Stack: 95 kg

■ The DHZ SM5005 Lateral Raise supports focused shoulder training with pad and handle positions designed around controlled arm elevation. Pivoting handles help accommodate different user builds, while the guided movement path encourages stable and consistent lateral raise execution.

18

Shoulder Press
SM5006

1. Dimension: 1510*1465*1540 mm
2. Weight: 258 kg
3. Weight Stack: 95 kg

■ The DHZ SM5006 Shoulder Press is designed for seated overhead pressing with a stable support structure and user-friendly adjustment. The seat position helps define the training range, while multiple grip options allow users to choose a pressing position that feels natural and controlled.

19

FORÇA

Hammer S-Force

Pectoral Fly/Rear Deltoid

SM5007

■ Dimension: 1250*1435*2050 mm
▲ Weight: 295 kg
■ Weight Stack: 138 kg

■ The DHZ SM5007 Pec Fly / Rear Delt combines two upper-body isolation movements in one compact station. Pivoting arms and carefully positioned handles support both chest fly and rear deltoid training, reducing the need for complex adjustments between exercises.

20

Chest Press

SM5008

■ Dimension: 1480*1080*1540 mm
▲ Weight: 286 kg
■ Weight Stack: 138 kg

■ The DHZ SM5008 Chest Press provides guided pressing movement for controlled chest training. The adjustable pressing arm allows multiple start positions, helping users select a suitable range of motion while maintaining a stable seated posture throughout the exercise.

21

FORÇA

Hammer S-Force

2.5 KG INCREMENT WEIGHT

- 2.5 kg increment weights on each machine.
- Select weight for finer load progression.
- Supports warm-up sets, controlled training, and different strength levels.
- Built-in adjustment keeps load selection simple, clear, and efficient.

FORÇA

Hammer S-Force

Assist Dip Chin

SM5009

- Dimension: 1285*1125*2215 mm
- ▲ Weight: 325 kg
- Weight Stack: 82 kg

■ The DHZ SM5009 Assist Dip Chin is designed to support assisted dip and chin-up training while also allowing progression toward bodyweight movement. The foldable knee pad provides flexible training options, and multi-position handles support different grip choices and exercise variations.

24

Standing Calf

SM5010

- Dimension: 1490*1145*1620 mm
- ▲ Weight: 340 kg
- Weight Stack: 195 kg

■ The DHZ SM5010 Standing Calf is built for standing calf raise training with adjustable shoulder pad height and stable foot support. The contoured foot platform helps users maintain secure positioning while allowing a natural ankle movement range during repeated calf raise exercise.

25

FORÇA

Hammer S-Force

Hip and Glute

SM5011

■ Dimension: 1650*995*1770 mm
▲ Weight: 340 kg
■ Weight Stack: 138 kg

■ The DHZ SM5011 Hip and Glute provides targeted lower-body training for hip and glute activation. Its bidirectional resistance structure supports controlled movement in both directions, helping users perform focused hip extension and glute training with stable body positioning.

26

Lat Pulldown

SM5012

■ Dimension: 1390*1235*2260 mm
▲ Weight: 270 kg
■ Weight Stack: 138 kg

■ The DHZ SM5012 Lat Pulldown is designed for upper-back training with adjustable thigh pads for improved stability and comfort. The angled-end straight bar supports a natural hand and wrist position, helping users maintain better control during pulldown movements.

27

FORÇA

Hammer S-Force

Abdominal Crunch

SM5014

■ Dimension: 1565*930*1330 mm
▲ Weight: 248 kg
■ Weight Stack: 95 kg

■ The DHZ SM5014 Abdominal Crunch supports controlled abdominal training through a guided crunch movement path. The counter-balanced work arm helps reduce excessive starting resistance, while dual foot supports provide stable lower-body positioning without complicated setup.

30

DHZ
GIGAFACTORY

Hip Abduction

SM5021

■ Dimension: 1550*1550*1330 mm
▲ Weight: 280 kg
■ Weight Stack: 138 kg

■ The DHZ SM5021L Hip Abduction is developed for targeted outer-thigh and hip abduction training. The adjustable start mechanism allows incremental positioning, while the knee pads and dual foot placements help support the legs comfortably throughout the movement.

FORÇA

Hammer S-Force

Hip Adduction

SM5022

1. Dimension: 1550*1550*1330 mm
 ▲ Weight: 280 kg
 ■ Weight Stack: 138 kg

■ The DHZ SM5022L Hip Adduction provides controlled inner-thigh training with an accessible start-position adjustment for easier entry and exit. The front-mounted weight stack also creates a more enclosed training position, helping users feel stable and comfortable during exercise.

Seated Leg Curl

SM5023

1. Dimension: 1510*1255*1445 mm
 ▲ Weight: 305 kg
 ■ Weight Stack: 138 kg

■ The DHZ SM5023 Seated Leg Curl is designed for focused hamstring training in a seated position. Adjustable back and thigh pads help users find a stable alignment, while the adjustable start range provides multiple setup options for different mobility levels and training preferences.

Triceps Extension

SM5028

■ Dimension: 1145*1050*1360 mm
▲ Weight: 228 kg
■ Weight Stack: 95 kg

■ The DHZ SM5028 Triceps Extension supports focused arm training with a stable seated posture and guided extension movement. The angled seat and arm pads help users maintain upper-body control, while the pivoting handle structure adapts to different forearm lengths during exercise.

36

DHZ
GIGAFACTORY

Biceps Curl

SM5030

■ Dimension: 1155*1075*1330 mm
▲ Weight: 225 kg
■ Weight Stack: 95 kg

■ The DHZ SM5030 Biceps Curl provides guided arm curl training with angled arm pads for stable upper-arm support. The pivot and handle positions help support a comfortable wrist path, allowing users to focus on controlled biceps contraction through the movement.

37

FORÇA

Hammer S-Force

Back Extension

SM5031

■ Dimension: 1220*1015*1330 mm
▲ Weight: 280 kg
■ Weight Stack: 138 kg

■ The DHZ SM5031 Back Extension is designed for controlled posterior-chain and lower-back training. The adjustable start mechanism allows users to select a suitable movement range, while the lumbar pad and dual foot positions help support stable body alignment during exercise.

38

DHZ
GIGAFACTORY

Seated Row

SM5034

■ Dimension: 1345*830*1960 mm
▲ Weight: 295 kg
■ Weight Stack: 138 kg

■ The DHZ SM5034 Seated Row supports upper- and mid-back training through a guided pulling path. The overhead pivot helps create a smooth arc of motion, while multiple hand positions provide training variety and allow users to target different pulling angles.

39

FORÇA

Hammer S-Force

Fixed Pulldown

SM5035

■ Dimension: 1565*1425*1865 mm
▲ Weight: 305 kg
■ Weight Stack: 138 kg

■ The DHZ SM5035 Fixed Pulldown provides a defined pulling path for controlled back training and circuit-style strength areas. The angled seat and handle positioning help users maintain a stable exercise posture while performing repeated pulldown movements.

40

Multi Press

SM5084

■ Dimension: 1740*1450*1725 mm
▲ Weight: 320 kg
■ Weight Stack: 138 kg

■ The DHZ SM5084 Multi Press combines multiple pressing movements in one selectorized station, supporting shoulder press, incline press and chest press setups through adjustable press-arm and seat positions. Its compact configuration helps facilities cover more upper-body training options without adding separate machines, while the guided movement path supports stable and controlled pressing performance.

Hammer S-Force

Lat Pulldown / Low Row

SM5085

■ Dimension: 2100*1235*2275 mm
▲ Weight: 290 kg
■ Weight Stack: 138 kg

■ The DHZ SM5085 Lat Pulldown / Low Row integrates two fundamental back-training movements into one space-efficient unit. With dedicated upper and lower belt positions, thigh support, footplates and separate handles, it allows users to perform vertical pulling and seated rowing exercises with consistent resistance and a stable training posture.

Hip Abductor / Adductor

SM5089

■ Dimension: 1705*625*1540 mm
▲ Weight: 345 kg
■ Weight Stack: 138 kg

■ The DHZ SM5089 Hip Abductor / Adductor is designed for both outer- and inner-thigh training in a single selectorized machine. Adjustable leg pads and clearly defined start positions support smooth transition between abduction and adduction exercises, while the seated design helps users maintain a secure and controlled training position.

Biceps Curl / Triceps Extension

SM5087

DHZ
GIGAFACTORY

■ Dimension: 1110*1075*1330 mm
▲ Weight: 249 kg
■ Weight Stack: 95 kg

■ The DHZ SM5087 Biceps Curl / Triceps Extension provides two arm-training movements through an adjustable work arm and dedicated support pad. The curl and extension setups allow users to target the biceps and triceps with controlled alignment, making it a practical choice for commercial spaces that need complete arm training in a compact footprint.

FORÇA

Leg Extension / Prone Leg Curl

SM5090

DHZ
GIGAFACTORY

■ Dimension: 1720*1040*1625 mm.
▲ Weight: 300 kg
■ Weight Stack: 110 kg

■ The DHZ SM5090 Leg Extension / Prone Leg Curl combines quadriceps and hamstring training in one dual-function unit. Users can switch between seated leg extension and prone leg curl setups with dedicated support pads and adjustable positioning, allowing lower-body isolation training to be completed efficiently within a single machine footprint.

BENCHES AND STORAGE

SET UP YOUR PERFECT PERFORMANCE WORKOUT

The durable steel frame construction withstands the impact of high-intensity free weight and bodyweight workouts. A wide range of options includes Olympic stations, training stations, bodyweight stations, and storage solutions.

FORÇA

Hammer S-Force

Flat Bench

SM-3001

■ Dimension: 1270*560*410 mm
▲ Weight: 25 kg

■ The Flat Bench is a traditional flat bench that offers high-grade durability and quality.

52

DH2
GIGAFACTORY

Abdominal Board

SM-3002

■ Dimension: 1740*610*880 mm
▲ Weight: 52 kg

■ A Decline Bench is a free weight bench that is angled downward to elevate the pelvis and lower the head, often with rollers to brace the feet. Abdominal crunch exercises work the muscles of the back and torso while upper body exercises performed with it work the lower portion of the Chest and Deltoids.

53

FORÇA

Hammer S-Force

Incline Bench-30 Degree

SM-3003

■ Dimension: 1100*630*780 mm
▲ Weight: 34 kg

■ The 30 degree incline bench features a fixed angle that provides proper positioning for multiple upper body exercises.

54

DHZ
GIGAFACTORY

Incline Bench-55 Degree

SM-3004

■ Dimension: 890*550*1010 mm
▲ Weight: 33 kg

■ The 55 degree incline bench features a fixed angle that provides proper positioning for multiple upper body exercises.

55

FORÇA

Hammer S-Force

Utility Bench-75 Degree

SM-3005

■ Dimension: 1300*640*940 mm
▲ Weight: 30 kg

■ The Utility Bench 75 Degree offers the functionality of a utility bench and a 75-degree curved footrest.

56

DH2
GIGAFACTORY

Decline / Abdominal Bench

SM-3006

■ Dimension: 1610*610*870 mm
▲ Weight: 46 kg

■ The Decline/Abdominal Bench offers two workout options in one piece of equipment with the same high-grade durability and quality that comes with benches and racks.

57

FORÇA
